No. 5067—L. B. (176-05)-6, dated 11—15th November 1905.

It is hereby notified for general information that Mr. Usman Sab, a member on the Municipal Board of Harihar, has been elected, under clause (g) of para 7 of the Rules framed under the Local Boards Regulation. II of 1902, to represent the Municipality on the Taluk Board of Harihar.

No. 5076—ML. (244-05)-2, dated 9—16th November 1905.

The following Rules for the regulation of water-supply and for house-connections from the water-works of the Chitaldrug town are published for general information :—

I. The supply of water from the Chitaldrug water-works being intended exclusively for *bonâ fide* domestic purposes, the water drawn therefrom, whether from public fountains and taps or from private house-connections, shall not be used for any other purposes whatsoever.

II. A supply of water for domestic purposes shall not include a supply thereof for any trade, manufacture or business or for fountains or for ornamental or mechanical purposes or for watering gardens or roads.

III. Water which has been used for washing, bathing or other domestic purposes may be collected and used for gardening or other non-domestic purposes.

IV. The water may, however, be used for purposes prohibited, with the special permission of the Municipal President.

V. Until further orders, private connections to houses will be limited to houses whose value is ordinarily Rs. 300 and upwards and to localities where the capacity and pressure of the public water-mains permit of such connections being made without detriment to the street service. On the latter point, the opinion of the Executive Engineer shall be final.

VI. All pipes, taps and other works required for a house-connection, shall be of such dimensions, character and material as the Municipality may approve, the pipe not exceeding half an inch in diameter, and they shall always be under the control of the Municipality and shall in no case be interfered with by any others. They shall be supplied, renewed or repaired by the Municipality.

VII. The cost of all pipes and taps and works required for a house-connection shall be borne by the house-holder applying for or desiring the connection, who shall pay in advance the estimated cost. The whole cost should be fully paid for before the house-connection is permitted to be used. All subsequent repairs to such pipes, taps and other works shall be executed at the cost of the householder.

VIII. The Municipal Board shall determine the size of each house-connection with due regard to the capacity and pressure of the public water-mains.

IX. The house-connection in any case is liable to be stopped or the supply reduced by the Municipality, without assigning any reason. When stoppage is due to exigencies which are previously foreseen, such previous notice as is possible under the circumstances will be given by the Municipality. If the Municipality has reason to believe that wasteful or unauthorized use is made of water drawn from any house-connection, such connection shall be liable to be stopped forthwith under this rule.

X. Every householder possessing a house-connection shall pay a tax of eight annas per mensem and deposit with the Municipality the amount of such tax for twelve months in advance.

XI. The Government reserves to itself the power, whenever it deems fit, to alter or modify the foregoing rules or to abolish altogether the system of house-connections to be established hereunder.

XII. Every house-connection shall be regarded as established subject to the conditions and regulations contained in the rules as above, or as they may be altered or modified for the time being by order of Government.

XIII. No water-cart shall be allowed to take water from a public fountain, except at such places as may be specially set apart by the Municipality for that purpose. The Municipality shall cause notice-boards to be put up at particular fountains, indicating that water-carts are allowed to take water therefrom.
